Project

UX UI Case Study: Photo Manager App

Personal Project, 1 April - 20 April 21

- Created a mobile app to solve millennials' searching photos problems, thereby showing the capabilities of problem identifying, defining and solving skill.

Collaborative Dissertation

Project-based Dissertation, Jun - Sep 20

- Collaborated with NEXT15 Communication Group Inc to identify the reasons why the subsidiaries were struggling in growing and innovation.
- Deeply reviewed on academic literature in suggestion of business scaling, entrepreneurial leadership and mindset & subsidiary entrepreneurship, thereby developing a theoretical framework for testing assumptions thoroughly.
- Interviewed with 6 subsidiary' CEOs and analysed the data by using textual analysis and NVivo to validate the assumptions and suggest potential approaches.
- With 87/ 100, the dissertation was impressive and recognised by professors and NEXT15. They started using my advice and professors approved that it is ready to be published after slightly improving.
